# Decorative Post Cover Sleeve Replacement Chain Kit, ArmorKraft™, Black - 1719BLK

## Product Images

---

## Short Description

---

- 6-foot-long black replacement chain
- Attaches to ArmorKraft decorative bollard covers (1713BLK and 1715BLK)
- Enhances the appearance of any walkway, building exterior or park
- Made of long-lasting, all-weather HDPE

## Description

---

If one of your bollard post chains breaks, replace it quickly and easily with our ArmorKraft™ bollard chain replacement kits. These kits have everything you need to quickly and easily install a new chain that helps to keep pedestrians and vehicles out of restricted areas and on the desired path. Simply hook the connector

piece onto the chain and slid it through the bollard post sleeve. Kit includes six feet of HDPE black chain, two post connector pieces and six stainless steel screws, which can be used to secure the bollard post sleeve to the ground or an existing bollard post.

## Why use Eagle bollard covers?

Eagle bollard post covers and chains quickly improve property appearance and keep pedestrians and vehicles out of restricted areas and on designated walkways and paths. Made in the U.S. with American-manufactured HDPE, these long-lasting, all-weather chains are resistant to rusting, cracking or fading.

Eagle post chains are nonconductive, chemical resistant, can withstand extreme temperatures (-30°F to 130°F) and feature UV inhibitors for fade resistance.

Our post sleeves and chains are easy to install, and our replacement kit comes with everything you need to install a new chain. To keep your bollard covers and chains looking pristine, wipe down with soap and water.

## Frequently Asked Questions

### What are bollards?

Bollards are steel or concrete structures meant to protect buildings, structures or any assets like utility meters, electrical boxes, pipes or machinery from vehicle collisions. They are also used in outdoor spaces to mark pedestrian traffic patterns or bike paths, keep pedestrians out of dangerous areas and prevent cars from driving or parking too close to unauthorized areas. [Learn more about bollard posts](#)

### What are bollard covers?

Bollard post covers are colorful plastic sleeves that slide over bollards to improve their appearance, increase their life and save companies the time and money of [annual painting and maintenance](#).

### How should I space my bollards?

In accordance with the Americans with Disabilities Act, bollards should be no closer than 3 feet apart so pedestrians in wheelchairs can move through the space. However, spacing between posts should not exceed 5 feet to ensure bollards provide protection against vehicles.

### Can decorative bollard covers be used for temporary setups?

Yes, bollard post covers can be used for temporary setups when combined with a rubber base [1718BASE](#). However, covers alone do not meet ASTM crash standards.

### Can I customize bollard sleeves?

Yes, Eagle offers color customization and embossing on orders of 500 bollard sleeves or more. Please [contact us](#) for more information or a quote.
