

14 Gallon Plastic Oily Waste Can, Hands-Free, Self Close, Black - 937FLBLK

Product Images

Short Description

Eagle Poly Oily Waste Can - 14 gallon constructed of black high density polyethylene

Description

Poly Oily Waste Cans are constructed of high density polyethylene (HDPE) and offer fire safe temporary storage of solvent rags, waste rags, shavings and other materials subject to spontaneous combustion. Will not rust or dent, are resistant to most chemical compounds, have no seam for a leak proof construction, and feature self-closing lid with foot lever and with a flared base for added stability. Available in Red, Yellow or Black. FM Approved. 100 percent designed and manufactured in the USA.
