Product Images

Short Description

- Reduce the danger of explosion while dispensing flammable liquids through a flexible metal spout
- Have double-walled flame arrestors in filler opening and pour spout
- Heavy duty roll bars protect both spouts, and a thumb screw mechanism assures the filler opening stays closed while being transported
- Meet DOT requirements

Description

Type II Safety Cans are made of 24 gauge galvanized steel and help reduce the danger of explosion while dispensing flammable liquids thru a flexible 12" metal spout. This design features two openings, one with a pressure-relief spring closing lid for filling, one with an actuated pour valve with a flexible metal spout for safer controlled dispensing. Red (for gasoline) powder coat finish. The filler spout and flame arrestors in both openings are non-sparking designed for flashback protection. Can includes a 5/8" flexible metal spout. Meet DOT requirements.
