

1 Drum Horizontal Drum Stacking System, Yellow - 1606

Product Images

Short Description

When used in combination with spill containment platforms, these products form a drum stacking system that meets EPA Secondary Containment Storage requirements (40 CFR 264.175).

Description

This Poly Single Stacker (Model 1606) is constructed of high density polyethylene (HDPE) and is used to stack a horizontal drum on the Eagle Horizontal Drum Stacking System. The Eagle Horizontal Drum Stacking System Drum Containment System is used in combination with Eagle spill containment platforms. All components (Model 1605 Cradle, 1606 Single Stacker, 1607 Double Stacker, 1608 Shelf, 1645 4 Drum Pallet, 1632 Drum Modular Platform)are 100 percent HDPE and are designed to lock into spill grating for stable drum storage and are ideal for chemical storage and dispensing. The shelf (Model 1608) attaches easily and allows for filling multiple containers at once.

Specifications

Model No	1606
Color	Yellow
UPC	048441000241
Drain	No
Material Specifications	High-Density-Polyethylene
Dimensions, Exterior	27W x 26.25D x 29H
Pallet Quantity	1
Net Weight, lbs	30
Net Weight, kgs	13.61
Compliance: EPA 40	Yes
SPCC Compliance	Yes
